

Juhee Oh

Product Designer

I work across end-to-end projects, from planning to delivery with engineers. With a service-driven background, I listen deeply to users' stories and turn them into meaningful digital experiences.

PROJECTS

Ringle (AI Speaking) App Redesign | Edtech Jan 2026 – Mar 2026

Redesigned the learning experience by improving the AI speaking feature, leading the project as a team leader across planning, research, and design. Conducted secondary and primary research to understand learning contexts and identified key needs using a Value Map, designing a personalized feedback experience to support user growth.

The Answers Website Design | Digital Media May 2025 – Oct 2025

Designed the website for an interview-based newsletter service and improved the overall UX/UI. Redefined the content-centered information architecture and improved user flows to increase readability and navigation efficiency. Developed a design system reflecting the brand identity and ensured a consistent user experience.

Phishing Hunter App Service Design | Fintech Apr 2025

Designed a scam prevention service using the Design Thinking process, from research to testing. Conducted secondary and primary research, developed personas, user journey maps, user flows, design systems, prototypes.

WebMD App Redesign | Healthcare Feb 2025

Redesigned a key feature of the symptom checker using the Double Diamond process, identifying user pain points through surveys and in-depth interviews, resulting in an average SUS score of 83.

Starbucks Responsive Website Redesign | Consumer Brand Dec 2024

Redesigned the landing page as a responsive website by improving the information architecture centered on seasonal content and optimizing the layout for various devices. Applied a design system and reusable components to ensure consistency.

EXPERIENCES

English Academy | Manager & Tutor Sep 2021–Now

- **Personalization:** Designed personalized curricula for students aged 5–12 by identifying individual learning goals and comprehension levels.
- **Client Management:** Conducted consultations with parents, communicating student progress and feedback. Built trust through consistent communication.

Asiana Airlines | CS Associate with Mileage Program Jul 2018–Apr 2020

- **User Experience Support:** Addressed mileage crediting issues by supporting users through clear guidance, contributing to a smoother service experience.
- **Stakeholder Communication:** Communicated effectively with internal teams and Star Alliance partners to ensure smooth coordination and service consistency.

ACTIVITIES

UX Book Study Group Oct 2024–Apr 2025

- Studied UX literature, including The Laws of UX, Don't Make Me Think, Hooked, and Nudge, among others, completing 9 books at a biweekly pace.
- Applied principles such as visual hierarchy, Gestalt laws to projects and design decisions.

Student Council Member Mar 2015–Feb 2016

- **Planning & Coordination:** Led event planning and organization within a group.
- **Communication:** Served as a communication bridge between students, faculty, and the department, gathering and synthesizing feedback, delivering proposals, and mediating issues to support alignment and resolution.

EDUCATION

Blossom UX School

UX/UI Bootcamp

Oct 2024–Apr 2025 | UK

- Completed 480-hours UX Course
- Covered UX/UI design, including design processes, user research methods, wireframing, prototyping, and responsive layouts.

B.A. in Airline Services and Chinese

Hoseo University

Mar 2013–Feb 2016 | South Korea

Chinese Language Exchange Program

Jilin University

Sep 2015–Feb 2016 | China

Completed exchange program in Chinese Language and Culture
